

Beach Kids Daycare and Early Learning Center

Beach Kids Too

Growing, Learning & Exploring Together

At Beach Kids Daycare and Early Learning Center, we believe that young children learn best when they feel safe, love, supported, and excited to explore. Every child is unique and develops at their own pace. Our goal is to meet each child where they are while creating meaningful experiences that build curiosity, confidence, independence, and a lifelong love of learning. Our classrooms use a hands-on, sensory, and play-based approach. Children learn through exploration, movement, conversation, creativity, social interaction, learning centers, sensory experiences, stories, music, art, science and discovery, cooking, and outdoor play.

Across all age groups, our curriculum is thematic, meaning that we plan our skills, activities, and learning experiences around a cohesive weekly theme. Each theme provides a meaningful framework for children to explore and practice a variety of developmental skills and subjects throughout the week. For example, a single weekly theme may be incorporated into early literacy, language development, math, science, art, sensory play, cooking, music and movement, dramatic play, and social-emotional learning. Activities are thoughtfully adapted to each age group so that infants, toddlers, and preschoolers can explore the same general concepts in ways that are developmentally appropriate for them. This approach allows children to revisit concepts throughout the week in different ways, helping them make connections, build understanding, and learn through repetition, exploration, and hands-on experiences.

OUR PROGRAMS

Infant Program (11 months-18 months)

Our youngest learners are welcomed into a warm, nurturing environment where strong teacher-child relationships and consistent routines create a secure foundation for exploration.

Age-appropriate sensory experiences and hands-on exploration

Gross and fine-motor development through movement and play

Early communication through conversation, songs, books, dramatic play, and gestures

Social interaction and early peer experiences

Growing independence through simple choices and routines

Music, movement, art, sensory activities, story time, and outdoor experiences

Toddler Program (18 months-2 ½ years old)

Toddlers are discovering their independence, expanding their language, and learning how to navigate the world around them. We provide a balance of teacher-guided experiences and child-directed exploration.

Language and communication through conversation, stories, songs, dramatic play, and repetition

Following simple directions and classroom routines

Sharing, turn-taking, cooperative play, and social skills

Fine and gross-motor development through hands-on activities and movement

Early exploration of colors, shapes, numbers, letters, and other concepts

Sensory play, art, music, science, dancing, dramatic play, cooking, and outdoor play

Toddler Transition Program (2 ½ years old-3 years old)

The Toddler Transition classroom bridges the early toddler years and preschool, helping children become more confident, independent communicators and classroom learners.

Stronger communication, vocabulary, and listening skills

Following classroom directions and participating in group activities

Sharing, cooperation, turn-taking, emotional awareness, and problem-solving

Self-help skills and independence with daily routines

Fine-motor and pre-writing activities, manipulatives, puzzles, and art

Early literacy and math concepts introduced through play

Sensory activities, science and discovery, music, stories, dramatic play, cooking, nutrition, and outdoor play

Preschool Program (3-4 years old)

Our Preschool Program builds on children's growing independence and curiosity while introducing intentional early academic and school-readiness experiences through hands-on learning and play.

Early Literacy: letter recognition, phonics, letter sounds, name recognition, vocabulary, listening, comprehension, storytelling, and beginner writing skills

Early Math: counting, number recognition and formation, shapes, colors, sorting, patterns, and beginner mathematical concepts

Social & Emotional Growth: friendships, cooperation, confidence, emotional expression, problem-solving, and independence

Physical Development: fine-motor skills, pre-writing, cutting, coloring, drawing, movement, dancing, games, and outdoor play

•**Learning Centers:** daily hands-on centers that change with monthly themes and encourage exploration, choice, independence, and collaboration

Program Hours and Flexible Scheduling

Our program is open Monday through Friday, 7:00 AM–5:00 PM. When you enroll your child, their spot is reserved for them throughout our full program day, from 7:00 AM–5:00 PM, regardless of the hours your child typically attends. Families are welcome to create a schedule that works best for their needs, without having to worry about additional fees for early drop-off or late pick-up within our regular program hours. There are no early drop-off fees, late pick-up fees, or after-hours fees.

To help ensure that children are able to participate fully in our daily curriculum, activities, and classroom routines, we simply ask that children arrive by 9:30 AM and remain at school until 3:00 PM or later. This allows children to experience the full learning day and helps us maintain consistency within each classroom.

Tuition is billed monthly and is based on the number of days your child attends each week, with flexible enrollment options available for 2, 3, 4, or 5 days per week.
